Media Release

Release of APC Examination Practice Papers 2015

We are pleased to announce the release of two further practice papers for the following APC exams:

- Knowledge Assessment of Pharmaceutical Sciences examination (KAPS) – Paper 1
- Knowledge Assessment of Pharmaceutical Sciences examination (KAPS) – Paper 2

These can be found on our website here:

<https://www.pharmacycouncil.org.au/pharmacists/overseas-trained-pharmacists/sitting-an-exam/>

These practice papers provide our candidates with the opportunity to see the format and content of the examination questions and can be used as timed exercises for candidates to work on their time management for the examination. The content and layout of questions in the practice papers match what candidates will see when they sit the real examination. The practice papers contain archived questions that have been used on past examinations.

The practice papers can be downloaded as PDF's. Due to the frequent changes to the scope and content within Australian pharmacy practice, we do not guarantee the currency of content once these papers are published.

Our aim is to release updated practice papers every year. We do this in support of pharmacy interns and overseas trained pharmacists who will sit our examinations.

For further information on the APC and our examination and accreditation services, see our website www.pharmacycouncil.org.au
