EXAM FORMAT
The KAPS Exam is delivered by computer via Pearson VUE.

- It consists of two multiple-choice question papers, covering theory and practice.
- You must complete each exam paper within 2 hours, i.e., 4 hours in total for both papers.
- Each paper consists of 100 questions.
- Each question contains a stem (a question, phrase or short paragraph) and 4 to 5 possible answers.
- There is only one correct answer for each question.
- Candidates attempting both paper 1 and paper 2 must sit both papers on the same exam day.

EXAM SUBJECT AREAS
The KAPS Exam covers the following four domains from the National Competency Standards Framework for Pharmacists in Australia 2010:
- Domain 1: Pharmaceutics
- Domain 2: Therapeutics
- Domain 3: Pharmaceutical Chemistry
- Domain 4: Pharmacology and Physiology

There are two papers of each KAPS Exam:
- Paper 1: Pharmaceutical Chemistry and Physiology, Pathophysiology and Pharmacology
- Paper 2: Pharmaceutics and Therapeutics

EXAM QUESTION TYPES
Questions may either stand-alone or be associated with a patient profile.

Stand-alone questions are those questions that are self-contained. You will be given all the information required to answer the question in the stem.

Patient profile questions are 2 to 5 questions that are linked to content found in a patient record or profile. The patient profile will provide you with basic information about the patient (e.g. age, weight, allergies) and also more detailed information such as the presenting complaint(s), any available test results and the medication history.

Patient questions should be answered within the context of the profile. The answer to a question in the profile will not be dependent upon correctly answering another question. Candidates will be able to answer each question independently of other associated questions.
